Letter No 607 dated 27-11-1928 from the President, Town Municipality Davangere to the Deputy Commissioner, Bellary

I have the honor to state that the request of extending the municipal boundary enclosed to notification of the municipal council for opening last and that some of the municipal councillors and Narasimhamurthi Rao point out the necessity of extending the present boundary of the municipality as it was fixed so long ago as 1907 and as the town has considerably extended to the south, north-east and to the east for the last 20 years On receipt of this communication the Chief Officer was requested to investigate the matter and submit proposals to extend the boundary with a plan showing the present and proposed boundaries of the town Accordingly he submitted a note together with the plan and urged the necessity of extending the town boundary as marked in the red line on the plan for the reasons given in his note This subject was placed before the municipal council in their meeting held on 30-10-1928 and the proposal of the Chief Officer was approved vide copy of the resolution enclosed for ready reference

The proposal of Mr Narasimhamurthi Rao and that of the Chief Officer together with the memo of the assessing officer and the plan are forwarded herewith in original for kind perusal Under the above circumstances, I request you to be so good as to move Govt to kindly cause a proclamation to be published in the official Gazette in English and Kannada announcing the proposed extension of the town limits under section 8(1) of the Municipal Regulation and to sanction the proposal after hearing objections which might be received thereof Draft copies of the proclamation in English and Kannada are also prepared and sent herewith

Deputy Commissioner,

submitted -

It is within the knowledge of the Municipal Council since some years past that the Geographical limits defined in the year 1908, has not suited the growing needs of the Town, either to acquire properties or to exercise control in respect of matters relating to public health, safty or convenience over persons or propertyes outside the said limits Mr Narashima Moorty has proposed that in view of the pending schemes of extending the town towards south so as to remove the congestion in the town, by extending the town by the and industrial centres etc, it is necessary to extend the Boundary of the Municipality in all directions and he suggests that this is very necessary as some difficulty is likely to arise regarding taxation of the many Gin and Oil Factories situated partly within and partly without the Municipal limits

To avoid such difficulties and to bring the Industrial Suberb where mostly the Gins and Oil Factories are situated and to extend the jurisdiction of the Municipal Council over persons and property in areas which enjoy the benifits of the Municipal Administration remaining outside its limits, a report was called for as to how far the Municipal limits have got to be extended The Assessing Officer has submitted a memo with a plan showing the future Municipal Limits, explaining clearly the reasons for extending the boundaries

Please place before Council 20/4/28 2nd 10/28

The extension of the Boundary is an absolute necessaty as the lands for the extensions of cooly lines, burial grounds, cannot be acquired without the Municipal limits and as the numerous factories which abundantly enjoy the benifits of the municipal ~~limits~~ administrations have to be brought within the jurisdictions of the Municipal Council

Under section 8 (1) of the Municipal Regulation the Government has to cause publication of the alteration of the limits in the local official gazettes in English and Kanarese and proclaim in conspicuous parts of the Local area in Kanarese, ~~and~~ requiring ~~the~~ all persons who entertain any objections to the said proposal to submit the same with the

16

reasons therefor, in writing to the Deputy Commissioner within two months from the date of the said proclamation before it can finally notify, the alteration proposed as regards the Geographical limits of the municipality Government has to be requested to ~~have~~ direct notification of the proclamation and to accord sanction to the alteration after the required period, after hearing objections if any

The present Boundary of Bowenagere Municipality does not include some of the factories located in the S. Mrs of Arekonda Village towards the East and 2 factories situated in the S Mrs of Nallapalli Village ~~towards~~ towards the South. The Survey Numbers which have been acquired for the formations of the Proposed Extension and the Coolie Colony in the Southern Portions are also outside the limits of the Municipality. The Mahamuni Burial ground ~~located in~~ in the western side is also outside the Municipal limits Towards the North, 2 burial grounds located in S Mrs 1 & 150 are not included in the Municipal boundary Besides there are proposals to acquire lands for the sewage farm and Dumping ground towards the North Hence there is an absolute necessity to extend the Municipal limits on all sides as per plan enclosed to administer the Municipal laws in the revised Municipal limits of Bowenagere Municipality

A proclamation of the ~~present~~ Proposed Municipal limits is also enclosed here in for kind reference.

Asst Commissioner Municipality

The total area of the towns as ~~presumed~~ according to the revised boundary would be 2 Square miles The original boundary was only one Square mile

17/7/28

The boundary of Dodballapur Municipality is determined by means of a notification in 1907 there seems to have been no further notification extending the Municipal limits any further. In view of the growing schemes of extending the Town towards South so as to remove the congestion in the Town, of extending the Town for Cooly lines and Industrial centres etc it is necessary to extend the boundary of the Municipality in all directions. This is further very necessary as some difficulty is likely to arise regarding taxation of most of the Gin and oil factories situated partly within and partly without the Municipal limits, and as such difficulties can be compromised to some extent by the extension of Municipal boundaries.

I therefore request that the Government may be requested to issue a notification for further extension of Municipal limits of Dodballapur Town so as to include the extra

acquired for extension and in area proposed
to be acquired in immediate future
for Town extension and other improvements
